

DISCOLORATION WARRANTY

All Lauxes floor drains are 100% UV Stabilized, meaning they are suitable for both indoor and outdoor applications. A minimum 25-year guarantee of no fading and discoloration* is presented on all Lauxes Drains products.

Color changes arising from improper/insufficient/negligence care or installation not in accordance with AS/NZS 3500.2 or manufacturers specifications will void the product warranty.

*Lauxes floor drains may slightly vary in colors due to environmental factors during manufacturing processes.

**Drains manufactured prior to the UV Stabilisation release (September 2021) will not be suitable for outdoor applications, voiding any fading/discoloration guarantee.

If your Lauxes drains are damaged or if you have any other concerns, please email as much information as possible, including images and your details to admin@lauxesdrains.com

Alternatively, you can call our HQ on +1 (800) 993-6892.
